

**WHEN HOSPITALS KEEP WORKING
TO GET BETTER, IT'S NO SURPRISE THAT
patients get better too.**

Study after study confirms the positive impact of American Heart Association and American Stroke Association quality improvement programs on patient outcomes.

Of course, for patients to get full benefit, hospitals must make a full effort. The hospitals on our list do just that — working 24/7 to maximize the value of evidence-based treatment guidelines, best-practice tools and resources. We thank them for all they do to make their hospitals — and patients — keep getting better.

Visit heart.org/quality for more information.

Focus on Quality

The hospitals listed in red qualified for
Target: Stroke Honor Roll status as of May 31, 2011.

These hospitals are recognized for at least 24 months of 85% or higher adherence on all achievement measures applicable and at least 75% or higher adherence on select quality measures in heart failure (HF) and/or stroke (S).
